

WALTHER

**PDP
F-SERIES**

**THE FIRST EVER DUTY PISTOL
DESIGNED FOR COMPACT ERGONOMICS**

PDP F-SERIES

DEFINED BY OVER A CENTURY OF ENGINEERING PASSION, PRECISION WORKMANSHIP AND INNOVATION.

Walther's timeless innovation has once more achieved a breakthrough never seen before in firearms with the PDP F-Series elite handguns. Whether you are on the job or with the family, it is your duty to stay ready for any situation that may come. Now, you can do so confidently with the groundbreaking advancements afforded by the Walther PDP F-Series. With revolutionary ergonomics, reduced trigger reach, reduced grip circumference, and reduced force necessary to operate the slide and you truly have the perfect tool for those with smaller hands. Add to that our SuperTerrain Slide Serrations, and the best striker-fired trigger on the market and the F-Series is hands down the best option out there. This is next evolution in world-class ingenuity for pistols.

With the PDP F-Series Carl Walther GmbH is expanding its successful pistol model series and once again setting standards in the world of duty pistols.

The PDP F-Series is the first duty pistol developed explicitly for women. A completely new striker-fired operating system has been uncompromisingly implemented in order to bring down the force needed to rack the slide.

Grip circumference, trigger reach and the entire grip ergonomics have been engineered to fit the shape of the female hand. The uniquely shaped grip is pure Walther DNA. The increased ergonomics leads to perfect hand positioning to realize a perfect, high grip to ease recoil and minimize muzzle flip. All other advantages of the PDP such as the groundbreaking PDT trigger, SuperTerrain Serrations or the Performance Duty Texture are elementary components of the PDP F-Series. And of course, all F-Series pistol models come "Red Dot Ready" out of the box!

AS THE IDEAL FIREARM FOR THOSE SEEKING UNMATCHED VERSATILITY, DEPENDABILITY, AND EFFECTIVENESS IN BOTH CONCEALED CARRY AND CONVENTIONAL SERVICE/DUTY SITUATIONS, THE WALTHER PDP F-SERIES IS HOW YOU STAY READY.

“THE F-SERIES IS THE SOLUTION
WOMEN SHOOTERS HAVE ASKED FOR,
FOR YEARS. WALTHER ENGINEERED
A HANDGUN BASED ON OUR HANDS,
WITH OUR FEEDBACK, TO CREATE A
FUNCTION AND FIT UNMATCHED IN THE
MARKETPLACE. PAIR A WOMAN WITH
A FIREARM ENGINEERED FOR HER AND
SHE IS FORMIDABLE AT FIRST SHOT.”

Walther Defense Division USA

PDP F-SERIES SPECIFICATIONS

KEY FEATURES

- Reduced slide force
- Reduced grip circumference
- Reduced trigger reach
- PDP compact magazine compatibility
- PDP compact/full size holster compatibility
- Superterrain serrations
- Performance duty texture
- Red dot ergonomics
- Red dot ready

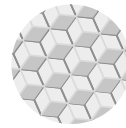

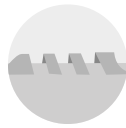

Reduced grip circumference

Reduced slide force

Reduced trigger reach

1. REDUCED TRIGGER REACH

Introducing the F-Series Reduced Trigger Reach, achieving superb trigger control has never been easier. The F-Series trigger has been moved to a location where any hand can find the perfect trigger finger placement. Proper trigger finger placement is a key to accurate shooting and trigger control. You will feel the difference the moment you pick it up.

2. PERFORMANCE DUTY TRIGGER

The brand-new 'PDT' Performance Duty Trigger is Walther's new and improved trigger system which has been achieved by shortening the length of travel and increasing the tactile definition of the trigger break. The incredible result is a highly distinct, recognizable feel for repeatable accuracy that will maximize your confidence. When you are READY to take the shot, this is the trigger you want.

3. SUPERTERRAIN SERRATIONS

The SuperTerrain Serrations are uniquely designed protruding serrations on the slide, allowing for quicker and more responsive hands-on engagement with the pistol. Instead of the standard subterranean cuts that are cut into the surface of the slide, Walther has broken the mold with a SuperTerrain design to raise the serrations above the

surface of the slide offering a new more positive feel to operating the action. When you go to make READY, you will feel the difference the instant you put your hands on it.

4. REDUCED SLIDE FORCE

Walther has developed a brand new operating system that results in an unprecedented 20% reduction in slide Racking Force. Utilizing a two-piece striker, all shooters will be able to experience the performance of the PDP with an intuitive slide rack that is as natural as it is durable. The Reduced Slide Force is the next step in exceeding expectations for shooters who know what it takes to stay Ready.

5. PERFORMANCE DUTY TEXTURE

Developed by Walther to provide a premium, yet functional grip, the Performance Duty Texture provides an aggressive surface to maintain proper grip performance. With its tetrahedron design, it is non-abrasive so there will be no irritation to the skin or clothing of the user.

Walther has pushed the boundaries of testing in some of the harshest conditions to endure this pattern is READY when you are. Whether it's torrential rainfall, extreme heat, and humidity, icy cold temperatures, or thick mud, the Performance Duty Texture of the PDP will help you be READY when it's imperative you have the perfect grip.

6. ERGONOMICS: PERFECTLY DESIGNED FOR A FEMALE SHOOTER

Designed from the ground up to fit the Contour of a woman's hand, the F-Series grip is smaller where it needs to be giving the shooter maximum control and faster follow-up shots.

The RDS Ergonomics on the Walther PDP are designed around making the switch to the popular red-dot sight system easier for the new RDS shooter and faster for the RDS veterans. The RDS Ergonomics have been engineered to allow shooters

to locate the red-dot instantly when presenting, achieved by engineered pinky pressure and offhand support. The PDP F-Series grip angle is designed for a natural aiming position which complimented and coupled with the innovative RDS Ergonomics, allow lightning-fast acquisition of the red-dot. When you are READY to make the switch to using an RDS the PDP is engineered to get you there faster and easier.

7. OPTICS READY

All PDP F-Series models come optics READY. If you plan on putting an optic on your pistol then you are READY to go, if you want to keep that factory look then you are covered with the included cover plate.
